## Richard V. Jackson Is Suicide Monday

### Veteran's Bureau Investigator Shoots Self

Despondency due to failing health was thought to have been a prime motive for the suicide of Richard V. Jackson, 50, Chicago attorney and fieldman for the Veteran's Administration. He was discovered lying in the road on Linden Lane at 8 p. m. Monday evening.

Jackson, who has been staying at the home of Mrs. Mary E. Kelly at Lake Catherine while following his work in this vicinity, had left the house for a short walk some time before his body was discovered. The fatal shot, which was labeled "self-inflicted gunshot wounds" by a coroner's jury here Tuesday morning, entered his right temple and went completely through his head.

Mrs. Kelly said that although he was in a highly nervous state, that he evidently had not contemplated suicide as plans for the coming summer were discussed just before he left the house. She expressed the view that a temporary mental derangement was responsible for his action.

Jackson was well known in Antioch community through his activity in veterans affairs and he was active in Legion work.

He was a veteran of World War I as well as World II, and held the rank of Major in the Army quartermaster corps. He was a special agent for the Federal liquor tax board prior to his enlistment in the army.

Surviving are his wife, Miriam, and four children, all of Dundee, Ill.

Funeral services and burial will take place in Dundee on Friday.

## Dog's Bark Calls Rescuers To Ice Boating Mishap

A dog's continued barking called attention to two persons who were taking a swim in the icy waters of Fox Lake Tuesday afternoon after a break through near the Otis Resort, Indian Point, Antioch.

Lee Bogarts, a resident of the section, was attracted by the dog and investigated, finding Mr. and Mrs. F. Van Schoick, of St. Charles, Illinois, floundering in the water near the entrance of the Petite Lake channel. The Van Schoicks, who are members of the Fox Lake Ice Yacht club, were circling the lake when the break through occurred. Mrs. Van Schoick was riding in the forward cockpit when the boat broke through the ice. She was thrown into the water and after several attempts to climb up on the edge of the ice, gave up the attempt and clung to the boat. Mr. Van Schoick was trapped in the after cockpit and was only partly immersed.

Bogarts threw a rope and succeeded in getting Mrs. Van Schoick to solid ice. He then summoned the Antioch Rescue squad who rescued Van Schoick and salvaged the ice boat.

Both were chilled and were treated for shock. Mrs. Van Schoick suffered a three-inch cut on the face.

Members of the squad report that due to high water the ice around channel mouths is not safe.

The Van Schoicks told squadmen that a ducking once in a while is to be expected and that they would be enjoying ice boating again Wednesday.

### Deadline for Job Insurance Reports Thursday, Jan. 31

Contributions and wage reports for the fourth quarter of 1945 became due on January 1st, under terms of the Illinois Unemployment Compensation law. State Director of Labor Robert L. Gordon warned today, and the 30-day grace period will expire at midnight, Thursday Jan. 31st. Interest at the rate of one percent a month accrues on contributions unpaid by the deadline date and penalties of two percent a month or part of a month are imposed on delinquent wage reports.

Director Gordon also reminded employers who are subject to Federal Unemployment Tax that unless their 1945 contributions to the State are paid in full by the deadline they will not earn full 90 per cent offset credit allowed against Federal Unemployment Tax.

Mr. and Mrs. Laurel Van Patten, have their little daughter Bonnie Lee home from Michael Reese hospital, where she had been for the past three and half months. Bonnie Lee weighs 6½ lbs. at the age of 4 months.

### Village Moves In Federal Planning Aid Program Here

Village Clerk Roy L. Murrie announced this week that all work on papers received from the Federal Works Agency in connection with the grant of more than \$3000 for planning village improvement has been completed. The required signatures have been placed on the papers and they have been returned to the agency for further action. It is believed that the money will be made available in the near future and that planning for the new village hall and the improvements to the sewage disposal plant can be started as soon as the money is received.

## News of the Boys in Service

On Friday, Jan. 18, 1946, 1st Lt. Bernard J. French of the U. S. Army Recruiting Station, Waukegan, presented John W. Kobernick, Route 1, Round Lake, Illinois, with the Bronze Star medal. Kobernick served with the 3rd Infantry Division of the 30th Infantry. The citation that accompanied the medal read as follows:

**Bronze Star Medal**  
"For meritorious achievement in actual combat on April 30, 1945 near Munich, Germany."

Veterans who were discharged, other than to accept employment, prior to Feb. 3, 1944, and who have failed to apply for their mustering out pay only until Saturday, Feb. 3, 1946 in which to apply.

This was pointed out by IVC Service Officer Arthur F. Reutlinger whose office is at American Legion Home, 501 W. Washington St., Waukegan, Ill., and who has the blanks and will be glad to assist veterans to file.

Veterans discharged since Feb. 3, 1944, have received their mustering out pay. Those discharged prior to that date, at their own request to accept employment, are not entitled, unless they served outside the United States after Dec. 6, 1941.

If the veteran has died, the widow, children or parents may apply. Mustering out pay may be paid to veterans to and including the grade of captain, army or navy, or senior lieutenant, navy or coast guard.

PHM 2/c H. S. Garwood, son of Mr. and Mrs. Sam Garwood of Loon Lake, received his discharge Jan. 21, at Great Lakes, after serving with the U. S. Navy for the past two and one half years. Garwood received his training at Farragut, Idaho and was stationed in California for twenty-six months. He and Mrs. Garwood called at the News office Wednesday.

Allen Leigh Latham, motor machinist mate, 2/c USN, is serving on the USS Euryale, submarine tender in the Pacific. The ship is a floating industrial plant, equipped to serve and repair submarines. During the war she succored subs at Pearl Harbor, Mile Bay, Manus, and Perth, Australia. More recently she has been training at Farragut, Idaho and was stationed in California for twenty-six months. He and Mrs. Garwood called at the News office Wednesday.

Sgt. John H. Horan, son of Mr. and Mrs. John Horan, received his discharge Monday January 21, at Camp Grant, after nearly three years of service with the army, including 26 months served at Wheeler Field, Hawaii.

**ADDRESS CHANGES**  
S/Sgt. T. B. Sciacero 367524227, Co. D, 91st Inf. Trng. Bros. Camp Roberts, Calif.

Sgt. Roy W. Aronson, son of Mr. and Mrs. A. W. Aronson, received his discharge Wednesday, Jan. 16, at Camp Grant, after serving with the U. S. Army for the past three years, including 24 months overseas with the 58th General hospital in France.

Mr. and Mrs. Albert Wilkinson of Lake Villa received a telegram from the War Dept. stating that their son Allen, arrived in San Francisco, Jan. 19 and they expect him home very soon.

Mrs. Hattie Marzahl of Richmond and Miss Marion Spangard attended a concert in Kenosha Sunday afternoon and were dinner guests of Mr. and Mrs. Haubrich in the evening.

Mr. and Mrs. L. R. Van Patten visited with friends in Milwaukee Wednesday.

## STILL THE BEST ROAD

### Voters Urged To Register at Once

### Rosing and Bennett To Register Local Voters

Voters of Antioch and Lake Villa township are urged to see that their names are properly registered before Primary Election day, April 9.

County Clerk Jay B. Morse has designated places throughout the county where prospective voters may register without going to the county court house. Wm. A. Rosing, supervisor of Antioch township and Arthur E. Bennett, supervisor of Lake Villa township will handle new registrations in the lake region. Rosing will register new voters at the Antioch Garage, and Bennett at his home, North Shore drive, north side Cedar lake, Lake Villa.

Special attention is directed to the fact that hundreds of young men who have been in the armed services and were able to vote without registration must now be registered in order to be able to cast a ballot.

Although persons must be 21 years of age, a resident of the state one year, the county 90 days and the precinct 30 days, those who are not now old enough, but who will be before April 9, may register at any time. Others who must register in order to vote include persons whose name has been changed through marriage or other legal means and persons who have moved within the county must re-register.

Persons who have moved from others sections, outside the county, must also re-register.

The voters permanent registration office is located at Waukegan in the county court house and is open from 8 a. m. to 5 p. m. daily, Monday through Friday, and open Saturday mornings from 8 to 12 noon.

### U. of I. Requests Early Registration Of Pharmacy Students

High School Seniors who plan to enter the University of Illinois College of Pharmacy next fall should file applications early in the last semester of their high school course, Earl R. Serles, Dean of the College, warns.

Aptitude tests and personal interviews are required before any applicant is approved, Dean Serles states. "As facilities are limited, applications should be sent in early to avoid disappointment. In addition, if the aptitude test proves the applicant better fitted for another field of work, we want to allow time for him to choose another course of training," he points out.

Application blanks may be obtained at the office of the Dean, 808 S. Wood St., Chicago. Two American foundation scholarship of \$200 each will be made available to freshmen through special examinations.

### Grade School Children Give Candy to Downey

Mrs. Eva Burnette, rehabilitation chairman of the local American Legion Auxiliary, reported this week that pupils of the Antioch Grade school had furnished a total of 324 bars of candy to the disabled veterans at Downey hospital.

### 1945 Income Tax Refund Checks To Be Mailed Early

Nigel D. Campbell, Collector of Internal Revenue, announced today that the first few hundred refund checks have been placed in the mails, representing overpayments on 1945 income tax returns.

Refund checks will be issued as soon as possible after the income tax returns have been filed. However, the entire refunding process will take approximately six months. Taxpayers are asked not to correspond with the Collector's office prior to July 1946, concerning 1945 tax refunds due to them, as there will necessarily be delay in many cases due to the great volume of work to be processed.

### Diamond Lake Man Injured In Auto Accident Tuesday

Still in the hospital as a result of injuries received in an automobile accident Tuesday night is Lincoln McGinnis, 19, of Diamond Lake.

The accident occurred on Route 21 about two miles south of Lake Villa, near the junction with Hainesville Road. McGinnis, a recently discharged serviceman, was alone in the car and was evidently traveling at high speed, failing to make a curve in the road. His car climbed an eight foot embankment and finally came to rest about two hundred feet from the road after rolling over and over several times.

McGinnis, who was still conscious, although badly hurt, climbed from the completely wrecked car and made his way to the pavement where he collapsed after flagging a car driven by Richard Redmer of Lake Villa.

He was brought to Lake Villa where the Antioch Rescue squad administered first aid and took him to a Waukegan hospital.

### Lauterbach and Swayer To Talk at PMA Meeting Jan. 31 in Wauconda

Members of Pure Milk Association in Lake County will hear PMA president Wilbur J. Swayer and general manager Arthur H. Lauterbach when they hold their annual meeting on Thursday, Jan. 31.

Lauterbach will report on the Association's activities during 1945 and discuss way of meeting price and production problems which dairymen will face in the year ahead.

The teams were well matched and "he scores was about even at the half, but the locals forged ahead during the last half to win by a comfortable margin. Coach Kruzan used all the available men in the game. A total of more than 15 players participated in the game.

The team has booked two games for next week, the first will be played Tuesday evening at Lake Forest, and the second at the local gym with a team from Ela township on Wednesday.

Ed Frazer, athletic director of the Legion who are sponsors of the team reports that Wm. Brooks has been appointed treasurer of the group and Wm. Murphy secretary.

### New Savings Bond Program Started

The new peacetime program to continue investment in U. S. Savings Bonds will be launched in Illinois this week, it was announced today by Arnold J. Rauen, State Director, U. S. Savings Bonds Division of the Treasury for Illinois. State headquarters will remain at 105 W. Adams St., Chicago.

Hundreds of volunteer leaders who made so successful the eight War Bond campaigns have already said that they will continue their activities in their communities, Mr. Rauen said. Indicative of the splendid work of these volunteers was the record of the Victory Bond campaign in Illinois which closed Dec. 31. This campaign, the "toughest" of the eight, and with virtually every observer voicing the opinion it would not reach its quota, wound up with Illinois reaching 112 percent of its "E" Bond quota, leading all other high-quota "E" Bond states. During the eight War loans, as well as in the interim, approximately eleven billion dollars in U. S. bonds of all denominations were sold in Illinois.

Otto S. Klass will continue his work as local bond chairman of Antioch township.

### HEINE-STOTT RECEIVE CITATIONS

Mrs. Heinrich Heine and Mrs. Harry Stott were awarded citations for distinguished services rendered in behalf of our Armed Forces and their families on the home front through "Bundles for America," for 1944. The awards were made by Mrs. Eva Hartford, president of Bundles for America.

Mrs. Heine entertained nine members of the Sub Unit of "Bundles for America," Jan. 17, at her home. The citation was presented to Mrs. Stott at the meeting.

### A Big Step Forward

"It's getting to be a habit" according to Bruno Manzardo, manager of probably local talent, as only small ed that the place was again burglarized Saturday evening. The Servicenter, located at the junction of Route 21 and 173, has been looted several times during the past few months.

The burglars gained entry to the building by breaking a pane of glass in one of the rear windows. This is the same method employed in previous looting.

It is believed that the persons responsible are "small time" operators, probably local talent, as only small amounts of merchandise have been taken. The thieves evidently do not have connections for disposing of batteries and other parts which might have been taken in the case of professionals.

The robbery Saturday night netted the burglars only a small machinist's tool kit, which it is believed, was taken only because it was locked, since a larger, more complete set of the same type of tools was undisturbed though it was open a few feet away from the one taken. Manzardo said that the crooks evidently believed the tool chest to contain valuable because it was stored in the office.

Steps are being taken to provide protective devices at the station.

The Ingleside Garage, formerly Ed's Garage, Route 59, near the Squaw Creek Bridge, Fox Lake, was also broken into Saturday night. The hoodlums made away with more than \$100.00 worth of tools and equipment.

### PARENTS OF DAUGHTER

Mr. and Mrs. Roderick Ames are the parents of a 10 pound daughter, Janet Lillian. The baby was born at Victory Memorial hospital, Waukegan, Wednesday, January 23.

## Agencies Die, But U. S. Jobholders

## Cling to Payroll

Congressmen, worried over the huge national debt, deficit spending and John Citizen's high taxes, saw rays of hope when some of the Federal emergency war agencies began disappearing when there was no more war to justify them.

The agencies disappeared—but the army of Federal employees didn't. They simply were attached to other Government payrolls.

The War Manpower Commission had 27,839 on the payroll. It was scrapped. Fine!

## They Re-appear

But, according to figures of the Congressional Joint Committee on Reduction of Non-essential Federal Expenditures (the Byrd committee), 26,076 of the defunct WMC employees promptly were attached to the payrolls of the Labor Dept. and the Federal Security Agency.

The War Labor Board was axed. But, 3,546 of its 3,844 employees later turned up in the Labor Dept. The Office of War Information died—of its 7,989 employees 7,383 got jobs in the State Dept., and 141 in the Budget Bureau.

The Office of Inter-American Affairs wound up after V-J Day with 660 employees, 554 of whom then attached themselves to the State Dept. payroll. And so on, with the FEA, WLB, etc.

John Citizen is still paying the salaries of 2,450,003 civilian employees in the U. S., and 763,190 outside the country.

## Pioneer or Poisoned Guinea Pig?

Arguments for and against state socialism have raged for years. Practical examples of socialism such as Germany heretofore have not carried much weight in opposing the expansion of the state in democratic countries. Too many people felt that there could be good socialism and bad socialism—that Germany was just a case of bad socialism. But now one of the oldest "democracies" in the world has deliberately voted to become a socialist state. England is a living guinea pig of supposedly good socialism. No longer need the argument surrounding socialism be carried on in the uncertain realm of theory.

The socialist government in England has been in power only a short time, yet definite patterns are taking shape. As was expected, the government moved rapidly to take over basic industries—banking, utilities, mining, transportation—the industries that believers in private enterprise in this country have long said must remain independent if the freedom of the people is to survive. The absorption of these industries by the new socialist government in England is said to be proceeding as part of an overall plan. Already it is expanding. Extensive import and export controls, rigid direction of home building, land controls and wide authority over investments are coming along as the logical outgrowth of socializing "certain" key industries.

The so-called land reform plans should interest American farmers. British farmers who do not follow

government production plans may be dispossessed of their property. In brief, British agriculture is to come under a socialization program similar to that now planned for basic industries. Some farm organizations in this country have long advocated limited socialism in the form of publicly-owned electric power. They seem to forget that food is the most elemental commodity of all. If socialism blossoms in this land, "food at cost" should logically be its first objective.

England is now reaching out for the farmer in her program of "good" socialism which is showing signs of being just as poisonous "bad" socialism. Observers can well begin to wonder whether England, after all, has not become just another poisoned guinea pig instead of a real disciple in the cause of progress.

## Grow Slow, Mister!

Reams of publicity have come out of Washington, D. C., describing efforts of government agencies to help small business. A member of the Commerce Department, writing in Chain Store Age, even tells how his agency advises and encourages small retailers to become big retailers. He cited a typical case, the owner of four stores in the Middle West. This owner had been operating his stores as four separate enterprises. With the help of advice from the Distribution Division of the Department of Commerce, he gradually converted his four separate stores into an integrated chain. This merchant was on his way, according to the Commerce official, to becoming a successful chain store operator.

Perhaps the new chain store operator should be warned that there will come a time, if he continues to apply himself, when unknowingly he will cross the nebulous border line separating small business from the big business. Then, instead of working with him to help increase his capacity to serve consumers still more efficiently, a lot of politicians will be working against him in the hope of destroying his efficiency and pulling him back to the level of less progressive competitors.

## Faith Justified

Transcontinental air mail service has passed its twenty-fifth anniversary. Since September, 1920, when the first trip was completed, 4,000,000 passengers have been carried over the original transcontinental air trail, along with 125,000,000 pounds of mail and 177,600,000 pounds of cargo.

One of the pioneer steps in the development of the present day air transport industry was the inauguration of air express. The Railway Express Agency was one of the first to show faith in the new form of transport. It created an air express division and encouraged the expansion of shipment by air. Its thousands of airline offices are as ready to accept air express parcels as they are any other kind. Such packages are moved by the fastest method to the nearest air terminal and transferred to planes.

But the growth of the past will be dwarfed by what is to come in the future. The entire history of express is based on the principle of taking the property of shippers into personal custody for delivery to the desired destination by the fastest possible means. Progressive flexibility in response to change is characteristic of the private undertaking.

As the transcontinental airlines look back with satisfaction over twenty-five years of aviation history, air express looks back with them. Its faith has been justified.

Church Family night, Friday evening this week at the church. Bring something for the supper at 6:15 and enjoy the evening with friends. Social hour follows supper.

Funeral services for Mrs. Judith Hoffmeyer, 27, widow of a World War II veteran, who was killed in India on Sept. 8, 1944, were held Monday at 2 o'clock at the chapel at 408 N. Sheridan Rd., with the Rev. A. G. Lozer officiating. Before her marriage in 1942, she was secretary for Irene Castle McLaughlin and recently has been employed by the law firm of Edwards and Block, also for Charles E. Jack, attorney. She and a friend had made a trip to Mexico during the Christmas holidays and contracted an illness which resulted in her death last Thursday at Victory Memorial hospital. Besides her parents, Mr. and Mrs. Thor Alfredson of Sand Lake, one sister Mary and two brothers, James in the Navy and Thomas at home survive. Burial was private.

The Royal Neighbor Camp held installation of officers at the hall last Wednesday evening as follows:

Oracle, Harriet Davis; past oracle, Georgia Avery; vice oracle, Lela Barnstable; chancellor, Elizabeth Anzinger; recorder, Helen Fish; receiver, Cora Hamlin; marshal, Celia Paste; manager for 3 years, Christine Jelane; inner sentinel, Mabelle Selter; outer sentinel, Ida Ahlander; captain, Lottie Barnstable; musician, Lulu Nelson; graces, Ethel Wood; Shirley Larson, Ollie Tweed, Cecile Blumenschein and Edna Barnstable.

Dist. Deputy Gladys Ames was installing officer and Lottie Barnstable installing marshal. Guests were present from North Chicago, Gurnee and Antioch. Following the installation the committee served ice cream, cake and coffee. The Neighbors will hold their next meeting on Wednesday afternoon, Jan. 29, at the hall and at this time the secret pals of the members will be revealed and new names assigned.

Mr. and Mrs. Leonard Sawyer and Mr. and Mrs. Andy McGlashan spent Saturday and Sunday with their parents, Mr. and Mrs. Andrew McGlashan.

Mr. and Mrs. Paul Avery, Jr., entertained Mrs. Drake Berg and son of Chicago, at their home over the weekend.

Mrs. Lulu Nelson went to Chicago last Friday to spend two weeks with her cousin and then will go on to St. Louis to visit her sister.

Bob Sherwood, who has recently been released from the armed services, visited his brothers, Delbert and Howard, and other relatives here last week. Bob lives at Round Lake with his mother.

Mrs. Anna Nader has visited her father and other relatives in Kenosha during the past two weeks.

A neighborhood party was held at the fireman hall Saturday evening to celebrate the return of Ervin Barnstable, Jr., and Junior Tweed to civilian life, after more than two years of service overseas. Sgt. Suez, who had been through the war with Ervin, was at the party with his wife. They live at Highland Park.

Mr. and Mrs. Russell Nickerson and children left last Friday for Elizabeth, Ill., near Galena, to spend a few days with relatives.

Mrs. A. L. Jennings, chemistry teacher at Wheaton College at Norton, Mass., arrived last Thursday to spend a few days between semesters with her parents, Mr. and Mrs. Frank Hamlin.

**HICKORY**

Mr. and Mrs. Chris Poulsen and Mr. and Mrs. Wilson King visited Mrs. Leo Fitzgerald at her home in Libertyville Wednesday evening, Jan. 16, in honor of her birthday anniversary.

Mr. and Mrs. Harold L. Aronson of Chicago, were Saturday evening callers at the Fred Leable home.

The numerous friends of Bob Wilson were pleased to see him once more directing the dances at our opera house last Friday evening. Bob is one of the old timers and used to play the violin when we were considerably younger and at the dance Friday evening we took part in one quadrille—we could not help it as the music carried us back to those days of "auld lang syne," when we were boys. In this respect we were not the only one as we noticed Corporal Cono and other old timers nimbly tripping the light fantastic, as gay and happy as in the days of old.

It is admitted in Zion City that Apostle Dowie is a sick man, and previous to his departure for Jamaica he made his will and disposed of his vast belongings. Ninety-five percent of the estate estimated at \$20,000,000 goes to Zion City corporation, two and one-half percent goes to Jane Dowie and Gladstone Dowie.

The Waukegan Weekly Sun of last

week said that on the recent visit of County Clerk Hendee to Antioch, he called upon Senator A. N. Tiffany at his place of business and was treated to a case of "cold feet". We think the Sun has another guess coming, as Senator Tiffany was not at his office at the time Mr. Hendee called, neither was he in town on that day.

**WE ARE** shifting as rapidly as possible into high gear on our \$3,000,000 program to provide more and better rural telephone service.

Rural telephones are now being installed and service improvements are being made at an increasing pace.

Of course, it's a big job and can't be done overnight. There are places where switchboards must be installed or enlarged, and sometimes new buildings put up. In other places, miles of new lines must be built before service can be provided.

But we are on our way to give telephone service to all who want it, and to improve it as fast as we can.

The body will be at Strangs funeral home until Saturday when it will be taken to Chicago for burial.

## Library News

(By Marlon Rigby, Librarian)  
Erich Maria Remarque's new novel, his first in five years, is "Arch of Triumph." With marvelous vitality of character, Mr. Remarque spreads a dramatic panorama of the teeming life of Paris on the brink of catastrophe. With this background, the story is of love and also of an exciting revenge.

A new historical novel, "The Un-speakables" by Laverne Gay, tells the story of the Lombard conquest of Italy in the sixth century. Authari, Lombard king, his best friend, Agilulf, and the beautiful Bavarian princess, Theudelinda, makeup the three sides of the triangle which provides a blazingly colorful love story packed with action, battle and intrigue.

John B. Powell, one of the best known "old China hands," went to Shanghai in 1917 and remained there almost continually until he was repatriated on the refugee ship Gripsholm in 1942. In "My Twenty-five years in China" he gives a vivid firsthand account of events before and after Pearl Harbor, together with the story of his imprisonment and torture by the Japanese.

"America is West," edited by John T. Flanagan, is subtitled "An Anthology of Middlewestern Life and Literature." In its pages you will find all the authors you would expect to meet: Lincoln, Twain, Garland, Lewis, Tarkington, and many a new writer whose acquaintance you will be delighted to make.

### Rock Salt

Ten pound bags of rock salt make good anti-skid insurance for motorists to carry with them in their cars during winter months to keep them from getting stuck if they should stop or skid on ice or hard packed snow. Thrown under car wheels, the abrasive action of rock salt crystals enables drivers to pull out without spinning their tires and wasting rubber. Because it makes snow and ice removal easy, people also use it on their slippery sidewalks, steps and driveways.

## Energy Saving for Homemakers to Be Discussed

Conservation of energy in the home will be the principal theme of the exhibits prepared by the Department of Home Economics of the University of Illinois College of Agriculture for the farm and home show to be held on Feb. 22, at Grayslake school, from 10 a.m. to 3 p.m., according to Mrs. Helen Volk, Lake County Home Adviser. The show is designed to present ideas, devices and methods for making farm living more pleasant and more profitable for all members of the family. Exhibits and demonstrations by representatives of the Agricultural Extension Service will constitute only part of the show. In addition, the ideas, methods and homemade labor-saving devices developed and used by homemakers and farmers of Lake County will be displayed and judged.

Laundry work is one of the major problems contributing to the anxiety and fatigue of the homemaker, according to a survey of fatigue problems published in 1945. Proper equipment, convenient arrangements and time-saving methods designed to relieve the ironing chore will be demonstrated at the show.

Another part of the exhibit will be devoted to kitchen arrangement and proper heights for working surfaces. Miniature models of kitchen equipment will enable the homemaker to easily visualize possible adaptations to her own home.

Also on display will be samples of homemade toys selected for the purpose of helping a child learn some of the possibilities before him for creation and discovery.

In addition to the homemakers' part of the show, there will be exhibits dealing with farmstead arrangement; prospects for farm prices; use of pasture; crop rotations and other land-use practices; "do's" and "don'ts" of using DDT; control of mastitis; growing of potatoes, strawberries and popcorn for home use; farm water supply; safety precautions; and care and use of farm woodlands.

**House Seeker Finds****One and Drops Dead**

PITTSBURGH. — The acute housing shortage in this area has claimed its first casualty. Reed M. Krotzer, 52, who had been seeking a house for five weeks, dropped into a real estate office. When an agent told him he'd found a house for him, Krotzer became excited and dropped dead.

**Braves Yank Fire To Rescue Buddy****Flier Dashes Into Ack-Ack to Bring Out Friend.**

OKINAWA. — When it comes to aerial gallantry and bravery, consider Lt. David G. Robinson of Chicago.

He deliberately flew into the most dangerous antiaircraft fire in the world — from American ships and shore guns — to keep one and possibly two fellow fliers from being shot down.

Robinson, a Wildcat pilot on an escort carrier, was spotting for naval gunfire over southern Okinawa, when he noticed an airplane under antiaircraft fire five miles to the northwest.

Suspecting it might be a friendly plane accidentally attacked by gunners who were "trigger happy" after heavy Jap raids the previous day, Robinson deliberately flew toward the gunfire. When he was two miles off, he identified the plane as a Corsair fighter with its wheels down.

Robinson said, "Guns on Okinawa and ships off the beaches were throwing everything they had at him."

"I figured that even if the gunners didn't recognize the Corsair, they'd recognize my Wildcat covering him and quit firing, so I indicated to the pilot to head for Yontan airfield. We started back at 1,500 feet and suddenly another Wildcat had joined us. We were under concerted attack all the way and getting a great many hits."

"Both the Corsair and Wildcat made a fast approach to Yontan and landed safely, but my controls were shot up and I crashed to the south, near Katena field."

"We three are extremely lucky to be alive and intact today."

**Quizzed About His Draft****Status; Dives to Death**

CHICAGO. — William T. Graham, 28, of 1257 Huntington road, Kansas City, Mo., plunged to his death recently from the 13th floor of the Y.M.C.A. hotel, 826 S. Wabash avenue.

Graham, through letters found in his room, was believed to have been the son of Dr. G. G. Graham, widely known Kansas City physician.

Questioned earlier in the evening by hotel detectives on his draft status, he became excited and went to his room, they said. When they found the door locked with a chain, the detectives removed the lock and found Graham had jumped through a closed window.

A friend in the hotel told police Graham had Hollywood ambitions. He had registered here February 26.

**'Small Fry' Only Marine In Family of Soldiers**

WITH THE MARINES. — When 1st Lt. Stanley Stumbough Jr. calls himself "small fry" it is difficult to understand, since he is more than six feet tall. But a word about his relatives makes his meaning clear, says the Leatherneck.

Two uncles in the army are both generals; a cousin in the army air force is a general; an uncle in the army air force is a colonel, and two cousins in the army are colonels.

"There are lots more," Lieutenant Rumbough sighed, "but I can't keep up with them." The fourth marine air wing pilot, son of a retired army colonel, is the only marine in the family.

**Name Needed Shortening, Marines Did Trimming**

WITH THE MARINES. — In combat areas everything is cut to the necessary minimum. Food is dehydrated, gear is streamlined, and, in one case at least, a marine's name was shortened to a convenient size, says "The Leatherneck."

When this leatherneck is asked for his full name, he sounds off with, "Private Antonio Jose Maldonado Garcia Ruiz Rodriguez Pereira Quinones Nadal Mirabel Cardona Ache Melendez." But as far as the records are concerned, he is Pvt. Anthony Joseph Maldonado of New York, N. Y.

**'Banana Finn' Tops Monkey From His Perch**

COLUMBIA, S. C. — After two days of tempting his pet monkey, Spider, with oranges, peanuts, apples and other delicacies to come down out of a tree, E. S. Metner surrendered.

He sold the monkey to J. H. Lanier "on the limb."

Lanier promptly gave Spider a "banana finn" — a banana dosed with sleeping pills.

An hour later Spider keeled over into the hands of his new owner.

**STATE TREASURER CANDIDATE**

RICHARD YATES ROWE

A group of personal friends of Richard Yates Rowe of Jacksonville, appeared in the office of Secretary of State Monday, and filed the necessary nominating petition for his entry as the Republican nominee for State Treasurer.

The petition contained signatures of Republican voters in every precinct of the State.

Mr. Rowe has visited every county in the State in recent months and plans a visit to every district previous to the primary election.

**Rosing Urges Better Care For Tractors**

It will take several years for farmers to obtain all of the new machinery needed for replacement and expansion, states Herman Rosing, Ferguson System dealer here, in sounding a warning on winter care of the tractor implements with a view toward longer wear.

He pointed out that all manufacturers are rushing tractors and various types of equipment to dealers everywhere as production increases, but that the serviceability of machinery now in use can be maintained by the

following helpful suggestions:

Give the engine a chance to warm up before racing the motor in cold weather.

Keep the battery clean, the terminals greased, the cells filled with clean distilled water. The charge in the battery should be maintained by running the engine or taking it to a service station for re-charging when the tractor is not in use for some time. Never store the battery on a concrete floor or in a damp place.

Rosing suggests that a hot engine be allowed to cool gradually before filling with cold water. In freezing weather, let the engine cool off a bit before draining the water.

Slow starting in cold weather may be caused by too heavy crankcase oil, frozen water pump, water in the fuel system, moisture in the distributor, or dirty spark plugs.

The following steps are advised for tractor storage:

Store tractor in shed or some other sheltered place; drain entire fuel system and cooling system; remove the battery for proper storage, and relieve the tires by elevating the tractor on blocks.

The manufacture of corrugating board from discarded chestnut chips after tannic acid extraction has been in regular production for nearly 20 years and is an example of what can be done with a waste product formerly burned for fuel.

There is but one exception to the rule that the United States flag takes precedence over every other flag. In the navy the church pennant which is not the flag of the church but a signal flag indicating the crew is at church, is displayed during the divine service on shipboard. According to navy custom it is flown above the national flag to signify no particular church but to acknowledge the existence of the Creator and to indicate that divine service is being conducted at that time.

**Early Virus**

Physicians agree that the cause of infantile paralysis is a filterable virus, an organism smaller than the bacteria. This virus may occur in sewage, probably in contaminated milk, food, and water, and possibly may be carried by the housefly. It has been isolated from the nasal secretions and stools of patients and from excretions of apparently healthy individuals. It probably enters the body through the gastrointestinal tract or through the mucous membrane of the nose and throat.

Today there is still a shortage of labor for handling deliveries; potash and phosphates are in greater demand than available supplies can take care of. Every farmer will want to step up yields again next year. I know, from long experience, that the best way to do this is with ANTIQUA MLG. CO. SOIL BUILDERS. I've seen how it increased yields of corn selected year after year for National and State Corn Husking Contests. It's my first choice among fertilizers."

"No one can tell what delays or other shortages we may have this spring. I am changing my buying habits and getting ANTIQUA MILLING CO.'s fertilizer NOW."

**Antioch Milling Company**  
Is Ready for You

We can supply you with 3-12-12, 3-12-6, 0-19-0, and 0-12-12 for Dec. 1945 delivery.

It's a wise farmer who takes his spring fertilizer NOW. Shortage of hands for shipping, trucking—combined with uncertainty of product restrictions, warrant storing spring fertilizer on the farm. Our Fertilizer in moisture-resisting 80-lb. Handiwrap paper bags is easy to handle and easy to store. Don't wait and hope to get it in the spring. Take your fertilizer NOW and avoid delays or disappointment when you are ready for planting. We suggest your calling on us NOW.

**Easy Credit for Builders Is Back****FHA Announces All Curb On New Homes Are Off.**

WASHINGTON.—Easy credit terms on home-building have come back to the nation. The home-building will follow shortly.

The Federal Housing administration announced it is returning to its prewar program of insuring mortgages on homes. Ten thousand private institutions—banks and others—stand ready to lend the money with FHA backing. Maybe you can't start building just yet, but you can start arranging a loan.

Under the FHA program, if you build a home costing less than \$6,000 you have to put at least 10 per cent down payment, and can borrow the rest.

If the home costs between \$6,000 and \$10,000, you put up 10 per cent of the first \$6,000 plus 20 per cent of the amount exceeding \$6,000. If the cost is over \$10,000, you have to put up 20 per cent of the whole amount.

The actual lending is done by building and loan associations, banks, and other financial institutions.

The FHA insures the loan. If the home-owner can't pay it back, the FHA takes the loss.

FHA insurance means the home owner gets easy terms, low monthly payments. The financial institution can't charge more than 4 1/2 per cent interest. In addition the FHA takes 1/4 per cent a year as its insurance fee.

**Loco Cattle Incurable, Veterinarians Are Told**

CHICAGO.—In the Middle West "loco" is a slang word meaning a state of mental derangement, but in the cattle range country it spells fewer cattle and less meat in wartime or in peace.

A report made to the meeting of the American Veterinary Medical association summarized the story of the locoed and recorded that there is no treatment for cattle poisoned by eating it.

The only safe procedure is to bar cattle from pasture land where it is prevalent, the committee's report said.

Cattle that eat locoed go quietly crazy, the report continued. If the poison affects the left side of the brain, they run in circles to the right, and vice versa.

Occasionally they stand with their legs crossed, afeat never accomplished by normal animals. They also fall asleep while standing, collapsing when they lose consciousness.

It takes weeks or even months before symptoms develop.

**U. S. Battleship Indiana Chased Japs 180,000 Mi.**

WASHINGTON.—Chasing the Japanese 180,000 miles between Guadalcanal and their home islands, the battleship Indiana participated in 7 major bombardments and her gunners shot down at least 15 enemy planes.

The Indiana's career, which began in November, 1942, was without reportable damage, although she was struck by a crashing Japanese torpedo plane during the battle of the Philippine sea, June 19, 1944, the navy disclosed recently.

The Indiana returned to the United States for routine overhaul only once since joining the Pacific fleet in 1942.

In February, 1945, she sailed within 60 miles of the Japanese coast-line in the first Tokyo raid.

**U. S. Navy Cuts Its Work Total of Six Billions**

WASHINGTON.—The navy announced that it was cancelling nearly six billion dollars in prime contracts.

This is in addition to a recently announced cut of 1.2 billion dollars in the shipbuilding program.

The cancellations were ordered, the navy said, to bring production into line with requirements of the postwar navy and to free men, materials and productive capacity for manufacture of civilian goods.

**Warship That Stayed at Home Sets AA Gun Record**

WASHINGTON.—Without leaving Chesapeake bay, the 32-year-old ex-battleship Wyoming fired more anti-aircraft ammunition during the war than any other ship.

Since March, 1942, more than 35,000 officers and men of the fleet have received anti-aircraft training aboard her.

More than 1,700,000 rounds of ammunition were expended through her seven different kinds of AA guns, without a single personnel casualty.

**Makes a Profit by Closing Food Store**

FREEPORT, ILL.—When Leo Fagan closed his food store for the V-J holidays he knew people would want bread, so he placed several baskets outside with a sign telling patrons to serve themselves. They did, and left \$33.20, or 20 cents more than the bread would have brought if sold over the counter.

**ZAPP CIGAR FACTORY****IMPORTANT****To Gas Customers  
of the  
Public Service Company  
of Northern Illinois**

The steel strike has seriously reduced the supply of coke oven gas normally available as a part of the gas which the Public Service Company of Northern Illinois serves to its customers.

As a result, the total supply of gas available will be reduced during the period of the steel strike and until the coke ovens of steel companies are again in normal operation.

Therefore, even though we will operate facilities to their full capacities, they will be stretched to the utmost in order to meet the gas demands of our customers if cold weather prevails.

WE, THEREFORE, ASK THAT YOU COOPERATE IN THE CONSERVATION OF THIS ESSENTIAL FUEL.

Here are ways that you can help:

1. Use your gas range oven or broiler as sparingly as possible.
2. If you heat your home with gas, reduce the temperature as much as possible consistent with the needs of health.
3. If you heat water with gas, use as little hot water as possible.
4. Use other gas appliances sparingly.

Your fine cooperation in the conservation of gas during the war emergency was most helpful and we trust we again can depend upon your cooperation in conserving gas during the present steel strike emergency.

**PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS**

**Discharged Servicemen  
Must Register With  
Selective Service Bd.**

Discharged servicemen who entered the armed forces prior to the time when they would have been required to register for selective service must register with a selective service local board within ten days after being released from service, State Director Paul G. Armstrong warned today.

"We have learned," stated Colonel Armstrong, "that some men between the ages of 18 and 65 years who enlisted before they were required to register have the idea that they are exempt from registration after they are discharged from the armed forces. This idea is erroneous, for the law requires that every such man register within ten days following his date of discharge. The only exception is the fellow who re-enlists within that period."

"If any such veteran is not discharged, but is simply 'released' to the reserve of his component, he still remains under the immediate jurisdiction of the armed forces and is therefore exempt from registration."

"Also, every veteran, regardless of whether or not he entered the armed forces through the selective service system, should report to the local board having jurisdiction over the area in which he intends to live following his discharge. Regulations require every registrant to report any change of status and change of address."

"Any veteran who is separated from the armed forces by honorable discharge, discharge under honorable conditions, or similar type of release for officers, is classified in Class I-C. Discharged, and is not subject to reclassification without special authority from the national director of selective service. Such reclassification occurs only in rare cases wherein local boards feel that the veterans have not rendered complete military service."

**Boy Scouts to Buy  
Surplus Army Equipment**

Sale of more than one million dollars worth of army surplus sleeping bags and two-man mountain tents to the Boy Scouts of America was announced today by the OSP, Consumer Goods Division, of RFC.

The sale includes 66,000 new sleeping bags and cases, and 52,500 new and 13,000 used nylon and cotton tents. This merchandise originally cost the Armed Forces \$1,263,000.

The sleeping bags included 11,557 mountain type, 40,000 Arctic type and 7,664 wool blanket type. More than 9,000 liners and 7,000 sleeping bag cases are also a part of the purchase.

The two-man tent was especially designed by the Military for use in the Alps. It is both fire and wet proofed and is 54 by 82 inches in size with a height of 43 inches.

The sale was made inline with the provisions of Regulation SPA 14 under which Boy Scout Councils are classified as non-profit Institutions and as such are entitled to purchase Surplus Property at Wholesaler's prices at a special priority.

The OSP indicated that further sales of Recreation Equipment to the Boy Scouts might be announced shortly.

**State Conservation  
Officers To Attend  
School On Fox Lake**

The state department of conservation's training school on Fox Lake Rt. 59, in Lake county, will open Monday, Feb. 11, to give approximately fifty Illinois conservation officers a five-day period of training. Other groups of these officers will attend

similar sessions of the school beginning Feb. 18 and Feb. 25. Attendance is compulsory for all conservation field officers. This will be their second year course in conservation training and practices.

Among the instructors at the school will be: Dr. Lee Yeager, Walter Gresh, Frank Dufresne, Phillip Dumont and Chester Leischardt, of the U. S. Fish and Wildlife service; L. F. Wainscott, of the U. S. Soil Conservation service; Dr. George Bennett, Paul Barnichol and Frank Bellrose, of the Illinois Natural History survey, and Robert Mann, superintendent, and Dr. David H. Thompson, of the Cook county forest preserves. Officials of the department of conservation will also assist in presenting the work.

**News of the Boys . . .**

Information has been received by the Local Recruiting Office at Waukegan to the effect that all officers, warrant officers, or flight officers released from active status under honorably conditions between May 12, 1945 and Nov. 1, 1945 inclusive, may, if otherwise qualified, be enlisted in the regular army in the grade of Master Sergeant or First Sergeant provided enlistment is accomplished prior to Feb. 1, 1946. The 20 day limitation will still apply to those officers released from active service after Nov. 1, 1945, however, these officers are not affected by the 31st January deadline. The day of release from active service in any case is the last day of terminal leave, if granted.

For any information call at the local Recruiting Office, located at 326 N. Genesee street, New Post Office Building, or phone Ontario 5260.

**Nuts in Forests**

More different kinds of native edible nuts are growing in the northeastern quarter of the United States than in any other area of equal size in the temperate zones, north and south, culturists of the department of agriculture say. The list includes black walnut, butternut, shagbark and red hickories, pignut, mockernut, American and beaked filberts, chinquapin (a dwarf chestnut), and northern pecan. There were also vast forests of chestnuts before they were largely destroyed by blight.

AS A CAR OWNER IN THE STATE OF ILLINOIS, HOW DOES THE RECENTLY PASSED FINANCIAL RESPONSIBILITY LAW AFFECT YOU?

Briefly, the enactment of the Automobile Financial Responsibility Law in Illinois will have the following effect on all automobile drivers after January 1st, 1946.

Every accident causing a personal injury or damage of \$50.00 or more must be reported to the State. A driver must report even though he is the only person to suffer damage and this report must be made within ten days.

Within thirty days after receiving the report, the State is required to estimate damages and notify the Secretary of State what amount of security will cover any court judgment which may result from the accident.

If the Driver Carries Automobile Liability Insurance, The Matter Is Closed So Far As The State Is Concerned.

If he is not insured, the Secretary of State will permit the driver ten days in which to provide security—surety bond, real estate bond, cash or securities.

Until such securities are deposited by the NONINSURED driver, the Secretary of State will suspend the driver's license and pick up the license plates.

This suspension will continue for one year if no action for damages is filed within that time.

If the driver is released from liability, the Secretary of State will return the driver's license and plates upon presentation of proper evidence.

The new law provides that the driver's license will not be revoked if (1) the driver caused no injury or damage to other than himself; (2) the driver's automobile was legally parked, stopped or standing at the time of the accident.

Any person who has twenty-five or more automobiles registered in his own name may qualify as a self-insurer, subject to the approval of the Secretary of State.

In cases where drivers are unable to secure insurance, provisions will be made for presenting such risks to the Assigned Risk Plan for approval and assignment to some insurance company.

This law will do much to take financially irresponsible drivers off the highway. Motorists will be led to recognize their responsibility and accident victims will gain protection.

The Financial Responsibility Law is NOT a compulsory insurance law such as exists only in the State of Massachusetts.

The Illinois law is similar to those in effect in thirteen other States, including New York.

If you are interested in receiving further information in regard to the Financial Responsibility Law, we shall be glad to send it to you. This will not obligate you in any way whatever and it makes no difference whether or not you now carry insurance on your automobile.

A telephone call or postal card will bring you a prompt response.

## Quonset Huts To House Northwestern University Students

Twenty Quonset huts of the type built in large numbers for Army personnel on Pacific islands are now being constructed for use by veterans on the Evanston campus of Northwestern University as a means of relieving their housing problems, University officials announced today.

Enrollment of veterans on the Evanston and Chicago campuses, as of Jan. 1, was 1,170 and tabulations not yet completed for the winter quarter just begun are expected to show an increase of more than 525 on the Evanston campus.

The Quonset huts, which are strictly temporary, will accommodate 320 veterans. Permission to build them was granted by the city council of Evanston.

Six huts are scheduled to be ready for occupancy by April 1, when the spring quarter opens. Fourteen huts will be situated on the grounds in front of the Lunt building, four east of Patten gymnasium, and two on a parking lot on Orrington near Clark st.

Cleaning Stain  
The first cleansing treatment that a spot of clothing receives may decide whether it comes out or becomes a permanent fixture. The sooner a spot or stain gets the right treatment, the easier it is to remove.

## UPHOLSTERING

Back on the job at my new address 280 E. North Ave. Ready to put new life in your worn out upholstered furniture. A telephone call will bring samples and estimates. Tel. 187-M. A. L. Samson, 280 East North Ave., Antioch, Illinois.

Enjoy a comfortable home. Insulate now against summer heat and winter cold and save on fuel bills. See us for roofing estimates, too. Antioch Lumber & Coal Co. Tel. Antioch 15. (39tfn)
